

The Energy Consortium Events

CLIMAFIX

21st & 22nd Sept 2024

ESG Workshop & Summit on Sustainability

18th Oct 2024

Energy Summit

26th to 29th Nov 2024

Energy Dialogs

12th & 13th Dec 2024

IECS Conference

27th to 29th Jan 2025

MORE TO COME

CLIMAFIX - 20 & 21 Sep 2024

Auditorium, D Block, IIT Madras Research Park

India's largest Climate Startup summit will focus on high-impact innovations. The summit will feature Tech Transfer, High Impact Presentations & Panel Discussions, and Early Stage Startup Pitches. This event, done in collaboration with Energy Agency International, will witness 1000+ attendees from industry, academia, policy makers, startups, venture capitalists, and investors.

Energy Summit 2024 - 26 to 29 November 2024

Melbourne, Australia

Building on the success of previous years, Energy Summit 2024 invites researchers, industry experts, and policymakers to explore and advance dialogue on critical energy challenges and innovations. Hosted by Deakin University, this year's summit will feature two main conference days, engaging workshops, and facility visits, providing a comprehensive view of energy solutions with over 700 global delegates.

ESG Workshop & Masterclass: Reporting Challenges and the Path Forward - 18 Oct 2024

Ruby Hall, Kohinoor Continental, Mumbai

This workshop will focus on 'E' and 'S' of ESG reporting, particularly Principles 2 and 6 of the BRSR framework, and will feature a closed-door discussion and master class with top ESG professionals from various organizations in Mumbai (BY INVITE only – expected 30 ESG professionals).

Energy Dialogues 2024 - 12 & 13 December 2024

Hall 2, IC&SR Building, IIT Madras Campus

This event serves as a platform for knowledge and best practices sharing on energy-related topics with experts from across the globe. It will feature plenary talks and curated masterclass modules, focusing on high-impact topics across multiple Sustainable Development Goals.

International Conference on Energy Conversion and Storage 27-29 Jan 2025

Hall 2, IC&SR Building, IIT Madras Campus

The 2025 edition will provide insights on present and future energy storage markets, bringing together researchers and industry professionals to deliberate on the long-term roadmap of energy storage. This event offers an opportunity to expand your network with 800+ industry professionals and academicians.

We invite you to join hands and work collaboratively on research, technology and innovations which will to accelerate net zero.

International Conference on Energy Conversion and Storage

27-29 January 2025 | TTJ Auditorium, IC&SR Building, IIT Madras Campus, Chennai

The 2025 International Conference on Energy Conversion and Storage will offer deep insights into the evolving energy storage market, bringing together researchers and industry professionals to shape the future of energy storage. Attendees will explore cutting-edge topics like advanced battery technologies, sustainable electrochemical practices, and battery recycling strategies.

This event offers a unique platform for networking, fostering collaborations, and learning from experts in the field. A specialized workshop on advanced electrochemistry will provide students and early-career researchers the opportunity to gain valuable insights and skills.

Themes of the Conference

Energy Storage & Conversion Systems

Batteries (ion, air, etc.), supercapacitors, redox flow batteries (RFB), and other systems.

Sustainable & Green Practices in Electrochemistry

Green fuels (hydrogen, ammonia), CO₂ utilization, and sustainable practices in energy storage.

Electrodeposition & Advanced Materials Processing

Innovations in electrodeposition, material synthesis, and electrode-making techniques.

Battery Recycling & Material Repurposing

Circular economy practices, recovery strategies, and battery component repurposing.

Why Attend?

- Understand the significance of energy storage and conversion in building sustainable solutions.
- Explore opportunities in the global energy market, including lithium-ion and beyond.
- Network with leading industry experts, academicians, and innovators.
- Participate in a tailor-made workshop by experts on advanced electrochemistry.

REGISTER NOW to be part of a global conversation on the future of energy storage!

OUR MISSION

Accelerating Net Zero

- Driving Collective Action Successful Energy Transition
- Facilitate Collaboration between Industry, Academia, Policy Makers, End Users & Government.

PARTNER WITH US

Annual Partner

Diamond	40 Lakhs
Ruby	30 Lakhs
Emerald	20 Lakhs

Event Partner

Title	20 Lakhs
Platinum	10 Lakhs
Gold	05 Lakhs
Silver	02 Lakhs

Event Mix

Global Attendees | Start-ups | Tech Deep Dives |
Expo | Research & Innovation

Terms and Conditions apply : The exact deliverables will be as per the final contract between the partner & Energy Consortium (IIT Madras) basis the nature of the event
